THE COMMUNITY ADVISORY PANEL (CAP)

Solutia, Inc.

J.F. Queeny Site

The recently completed community interviews were one step toward development of a Community Advisory Panel for Solutia's J.F. Queeny site.

One of the goals of the interviews was to identify and recommend prospective members of the CAP. The members will be:

- Community leaders who are respected by their peers and neighbors
- Representative of Queeny's audience
- Willing to honestly convey information and to listen to opposing views

Recommended CAP members are listed on the following pages. About 15 members is a good size group; we are recommending more than that to allow for Solutia's review and because not all recruits will sign up.

Once a consensus is reached, Alliance Communication will create a letter of invitation asking prospective members to attend an exploratory meeting. We will develop the agenda and facilitate that session. The goal of that meeting is to explain Solutia's interest in developing a CAP, solicit members, discuss community perceptions and set the date for the first regular CAP meeting.

These steps all will be done within two to three weeks. The exploratory meeting can be held in April and regular CAP meetings will begin in May.

Format

Details about when to meet (lunchtime, evening, etc.) will be made by the CAP. For maximum effectiveness, it's recommended that the CAP meet about 10 times a year. Monthly meetings likely will be skipped in December and July or August to accommodate vacations.

The first regular CAP meeting agenda will be to agree on a mission statement for the group and identify priority issues for both the community and Solutia. These issues will be subjects of future meetings.

Queeny site employees attending meetings or making presentations will be briefed beforehand. Alliance Communication will facilitate the meetings and set agendas based on interests and recommendations of members and consultation with Solutia.

The format will be structured, but relatively informal. Meetings will last no longer than two hours, including mealtime.

Before the first meetings are held, more specific planning and memos will be developed for Solutia.
