Q So when you got 1,000 times greater risk, common sense really just tells us that you have got a problem?

A Yes, sir.

Q With respect to the insulators, the problem that Dr. Selikoff identified was insulation?

A The materials that contained asbestos, yes.

Q Okay.

Now, I understand from your testimony this morning that you are not an expert really, regarding the various types and manufacturers of asbestos-containing products.

I think you responded to one of Mr. McGowan's questions by saying that is really a different part of the case; is that right?

A That is correct.

Q I would like you to assume for a minute that several large scale epidemiologic studies have been conducted about a particular occupation other than insulation, and that this particular occupation used products that were composed partly out of a type of
