

CEROCK Wire & Cable Group, Inc.

INTERNAL MEMORANDUM

SHOW NAME, TITLE AND CORPORATION OF ADDRESSEE AND ADDRESSOR DATE: October 4, 1984

TO: ALL DEPARTMENT HEADS

FROM: R. D. WEINER

SUBJECT: PERSONAL PROTECTION EQUIPMENT

While there are many difficult problems with safety in this plant, none is more obvious and correctable than the total indifference on both management and employees part to the wearing of personal protection such as safety glasses, hearing protection, and safety shoes.

As a result, we are experiencing an increase in eye injuries.

The rules in this plant are as follows:

1. All employees will wear eye protection while in manufacturing areas.
2. Employees working in high noise areas will wear hearing protection.
3. Employees working in manufacturing and lab areas will wear safety shoes.

Enforcement of these rules is the responsibility of all managers and supervisors throughout the plant, not just first line supervisors. I shall personally take employees off their job if they are not complying with these rules. The attached bulletin board notice, posted on October 4, 1984 covers the points.

OCTOBER 4, 1984

PERSONAL PROTECTIVE EQUIPMENT

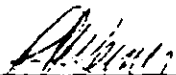

Use of safety glasses, safety shoes, and hearing protection has dropped off significantly in recent months. Unfortunately, the hazards which these devices are designed to protect us from, have not.

The rules in this plant are as follows:

1. ALL employees will wear eye protection while in manufacturing areas.
2. Employees working in high noise areas will wear hearing protection.
3. Employees working on the factory floor will wear safety shoes.

All employees, office and factory, are required to comply with these rules. For your protection, corrective action will be imposed for failure to do so.
