

Weyl Corporation
Dear Sir.

Coldbrook N.B.
Oct 7/43

Would you be kind enough to supply me with some information on Tetracetyl Lead. I have been working with Gasoline which contains this lead for years, and I would like to know, in what way this is poisonous to the health, is it from the Gas. fumes, or getting your hands in it, or the dust from the lead while cleaning out a tank, when a man is sweeping them out. I have been told this lead is poison, but never had it explained what the results is on your health. I would be very pleased if you would let me know, the effects, of this lead.

Yours Truly

Charles E. Bayler
