Mr. Walter Scott
Cape Asbestos Fibres Limited
Iver Lane, Cowley
Uxbridge, Middlesex, England

Dear Walter,

We are attaching a letter, addressed to Dr. Gaze, which is pretty much self explanitory and we would hope that Dr. Gaze, Simon Dougherty and yourself would have a meeting of the minds on this situation at the earliest possible date and give us your reply as soon as possible.

We realize there is certainly a question of availability, particularly with regard to S grades, but we see here an opportunity to pick up some extra business and perhaps offset anticipated losses to Central Asbestos this year. It would also appear that considering Certainteed's past record we might have a better chance here of securing a better Rand return to the Mines.

We would again emphasize that it would very helpful if we could secure a comparison chart listing Turner Newall grades versus Cape grades.

We would certainly appreciate your early reply so that we can set up a meeting with Certainteed prior to November 1st.

Best personal regards.

Sincerely,

CGMorgan/jc
