The amount of Aroclor found in the round of samples submitted the week of 8-3-70 are reported below as parts per billion (ppb) polychlorinated biphenyl (PCB).

Log No.	Date	Description	PCB (ppb)
79	6-25-70	Sediment, J. B. Bridge	418
80	6-25-70	Sediment, E. Carondelet	20
81	6-25-70	Water, Miss. River, E. Carondelet	N.D. (1)
82	6-25-70	Water, River Ranney	6
83	6-30-70	Sediment, Monsanto Dock	887
84	6-30-70	Sediment, Upstream	N.D.
85	7-8-70	Water, No. 4 still, steam condensate	N.D.
86	7-29-30	Water, 246 trench weir	2310
93	8-10-70	Water, Influent treat plt.	Indeterminate (2)
94	8-10-70	Water, Effluent, treat plt.	137
	8-3-70	Muriatic acid, 218 forward flow	<10

(1) None Detected - lower detection limit ~ 5 ppb

(2) Chromatographic interference
