SANTICIZER 794

JPQ Research - R. N. Mills

Will you please develop specifications for a blend of 50% Aroclor 1248 and 50% Aroclor 1260?

This is Santicizer 794--product code 7704-794-04-03. It will be made at the William G. Krummrich Plant.

Attention Donald Mayer: Initially, we would like 2,000 gallons of this material blended and drummed off to be held for the submission of customer orders.

Thank you.

John W. Elhausen
