935 Anders Road
Lansdale, PA 19446

President, Joseph A. Guimond & Associates, Inc.
751 Route 113
Souderton, PA 18964

Bachelor of Science Degree, Mechanical Engineering
Virginia Polytechnic Institute and State University, 1964

Employment Summary:

1972 - Present: President - Joseph A. Guimond & Associates, Inc., Souderton, Pennsylvania. His responsibilities include overall supervision of this full-service environmental plant engineering firm. Specific areas of concentration include noise and air contaminant testing, environmental analysis programs, design and installation of environmental control systems, development of research and administrative control programs, and development of environmental preventative maintenance programs. Guimond has considerable contact with federal, state and local environmental agencies at the administrative level and is a qualified expert witness. He is a member of the American Society of Mechanical Engineers, Air Pollution Control Association, and American Foundry Association.

1971 - 1972: President, Major Engineering & Sales Company, Lansdale, Pennsylvania. Involved in the sales, design and installation of dust control systems to heavy industry.

1969 - 1971: Assistant Chief Engineer/General Sales Manager, The Johnson-March Corporation, Philadelphia, Pennsylvania. Involved in the design and installation of major dust control equipment and systems for heavy industry including foreign consulting projects in South Africa and Brazil.
