Thank you for working out all of the details for the administrator to come to Nashville. I know that behind the scenes there is a massive logistical effort going on to make a trip like this successful. Speaking of successful, the administrator's visit was the highlight of our convention. It would not have happened without the concerted effort on your part. Everybody from the president of the company to the board of directors to the convention attendees gave the administrator rave reviews and were very impressed with the organization of the EPA staff. In short, it was a grand slam. Well done!

PS- Would you please forward this email to Sarah, Liz, and the security team? I did not have their email addresses.

With grateful appreciation,

Charlie
