SHOOTING against teams of the U. S. 2nd Engineers and the U. S. Reserve Officers, at Ft. Logan, Colorado, on November 9, 1930, the Denver Police Department Top Pistol Team, led by Captain F. F. Campbell, won with a score of 1360 x 1500, forty points in front of the runners-up.

The Police Team used U. S. .38 S & W Special Mid-Range Sharp Shoulder Cartridges.

The consistent performance of U. S. Ammunition in recent pistol and revolver matches is eloquent testimony to the uniformly high standards to which all U. S. Ammunition is made. More and more each day, shooters are recognizing the fact that they can *depend* upon it.
