Per your inquiry, the following batches of Pydraul 320-C have been made and shipped bulk to U.S. Steel in Chicago, Ill.

Shipping Lot	Date	Pounds	Batch	HQ-40 Source
QE-22005	8/8	43,280	W-21908	T/C GATX 95156 Lot #QE-10865
QE-24695	9/4	37,000	N-24608	Lot #AE-18 or #QE-31827
QE-25255	9/9	36,460	W-25108	Lot #QE-31887
QE-26185	9/18	42,040	W-26018	Lot #QE-31887 and Lot #QE-32003

We have 20,009 lbs. left of QE-32003 - we are holding this in tank car GATX 87709.

Our MCS-1436 inventory is 154,000 lbs. The last HQ-40 used in this formulation was the 70,000 lbs. used on 6/18 in Batch E-16838 from tank car GATX 95156 on lot QE-10865.

Hopefully this gives some insight into the source of our HQ-40 problem. Please call if more information is needed.
