June 20, 1967

Mr. Walter Gasser
Arthur G. McKee Company
650 5th Street
San Francisco, California

Dear Mr. Gasser:

Mr. Pogue of our Los Angeles office has asked me to forward toxicity information on our Therminol Fluids. Enclosed is a sheet discussing the toxicity and safe handling of Therminol FR-2.

Therminol 66 is equally non-hazardous when used as a heat transfer fluid.

If I can be of any further assistance, please let me know.

Very truly yours,

R. Emmet Kelly, M.D.
Medical Director
