PLAINTIFF'S EXHIBIT CEL-911a

Find Out Fast If It's Asbestos

Whenever there are many sites to survey for asbestos, save time and money with the E-C Asbestest™ asbestos detection kit.

Many industrial hygienists at refineries and chemical plants use it for inexpensive "go/no go" testing. More expensive laboratory tests may be eliminated with the Asbestest™ which uses standard colorimetric procedures to detect asbestos-bound iron and/or magnesium. It is sensitive to as little as 1% asbestos with no false negatives for either serpentine or amphibole material.

E-C Asbestest Kit contains enough materials for 55 tests. Nothing else is needed. Typical tests can be run in 5 minutes. EC110 Asbestest Kit . . . $125 f.o.b. St. Petersburg, FL.

For information, call Technical Service toll free 1-800-624-2232 (in Florida, 1-800-282-7932).
