Q Yes.

A Yes.

Q And is that a new science or is that something that has just been developed in 1986 when OSHA passed the OSHA standard?

A No. We talked about field of industrial hygiene starting with Ramazzini in the 17th Century, but certainly modern industrial hygiene right after the turn of the century, and techniques and methods of control were well described in that original publication.

Q Are you familiar with a document or a publication known as Safety?

A Yes.

Q And could you just briefly describe -- first of all, not briefly describe, but when was Safety published?

A Around 1913, 1914.

MR. IGNATOWSKI: Do you have the Safety?

MR. SHELLENBERGER: No.

BY MR. IGNATOWSKI:
