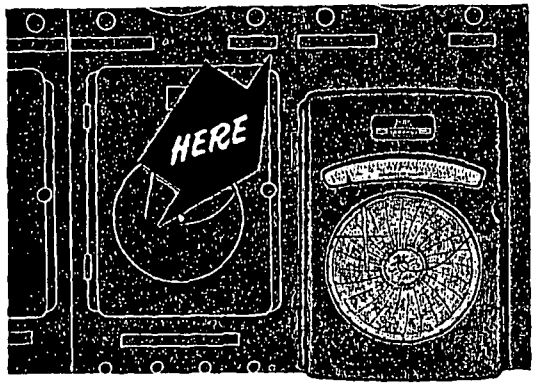
Get accurate boiler feedwater facts



Now you can keep track of boiler feedwater consumption with this Totalizer-Indicator-Recorder right at your central control panel. Builders Propelofio Meter totalizes the flow on its direct reading register on the meter body — and can also transmit the accurate flow story over a simple two-wire circuit. The Propelofio Meter is completely self-contained and self-operated, and requires no external power source. Standard designs are available for temperatures up to 275°F, and for 150# and 250# operating pressures. Power for the complete transmitting and receiving system (110 volt, 60 cycle A.C.) is supplied from the receiver end of the circuit. The receiving instrument may be panel, wall, or panel-stand mounted.

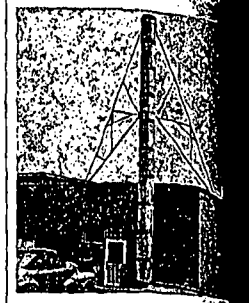
More EQUIPMENT NEWS



Industrial Chimney

965 • Insulated stack is made of factory insulated wall, jacketed with aluminum. It cannot rust out, manufacturer claims, and requires no maintenance or painting. There is no danger of acid fumes.

The stack comes in 36-in. sections that can be built up to any height. Overlapping joint bands and acid-proof high-temperature cement provide secure joints. Bases available.

Van-Packer Corp, Dept 000, 209 S. La Salle St, Chicago 4, Ill.

For more data on these items, use post card, p. 161. Identify your request with item number.

Heavy-Duty Air Line Filters

966 • New heavy-duty filters for removing water and oil from compressed air lines are tested for 500 psi. The steel outer shell bowl is 6-in. diameter, and is 36 in. long. Inner cartridge is 24 in. long, 5 in. in diameter, and has a removable perforated bottom disk. It is packed with fiberglas.

Air-Line Engineering Co, 198 Walnut St, Mansfield, Ohio.

PIPING that puts power in its place

... is part of the "Blaw-Knox Job" for Industry

In the designing and prefabricating of both power and process piping, Blaw-Knox does a complete job. It is thoroughly equipped for this with modern facilities and a wide range of engineering, chemical, metallurgical and power-distribution knowledge.*

Blaw-Knox products and services listed at the right give a lift to production, performance and profits in many industries. Write for descriptive literature on any product or service of interest.

**Power plant engineers also depend upon Blaw-Knox Functional Hangers, Vibration Eliminators and Roller Assemblies to save engineering time and to take care of both ordinary and critical load problems.*

MEMBERS OF THE BLAW-KNOX "FAMILY" AND SOME OF THEIR PRODUCTS

Blaw-Knox Equipment Division
Blawnox, Pa.
Concrete Road Paving Machinery
Clamshell Buckets
Contractors Equipment
Gas Cleaning Equipment
Open Steel Flooring
Radio, TV and Transmission Towers
Steel Forms for Concrete Construction
Chemical and Process Equipment
Water Cooled Equipment for High Temperature Furnaces

Buffalo Equipment Division
Buffalo 11, New York and Minn., Minn.
Machinery for the Chemical and Food Processing Industries
Specialized Machinery for the Dairy Industry

Chemical Plants Division
Pittsburgh 30, Pa.
Complete Chemical, Petrochemical, Industrial and Petroleum Plants

Foote Construction Equipment Division
Hondo, New York
Black Top Road Pavers
Concrete Road Pavers

Lewis Machinery Division
Grovetan, Pa.
Rolling Mills and Auxiliary Machinery for Rolling Ferrous and Non-Ferrous Metals

National Alloy Division
Blawnox, Pa.
Alloy Steel Castings for Extreme Temperatures, Abrasion and Corrosion Resistance

Power Piping and Sprinkler Division
Pittsburgh 33, Pa.
Prefabricated Piping Systems for High Pressures and Temperatures, Pipe Hangers
Automatic Sprinkler Systems for Fire Protection

Rolls Division
(Pittsburgh and Lewis Rolls)
Pittsburgh 1, Pa.
Rolls for Steel and Non-Ferrous Rolling Mills

Union Steel Castings Division
Pittsburgh 1, Pa.
Heavy Steel Castings
