Mr. Ronald E. Benton
Reynolds Metals Company
General Office Building, Industrial Hygiene Dept.
6603 West Broad Street
P. O. Box 27003
Richmond, Virginia 23261

Dear Mr. Benton:

I have received your report on your visit to our premises on August 24 and 25. I wish to advise you that I shall make immediate plans for the proper disposal of the asbestos fiber in accordance with your recommendations. Under the circumstances, we will not plan any future use of this material for any purpose. Frankly, the requirements are so formidable we could not begin to justify asbestos fiber for the occasional and limited use we make of it here.

Thank you for your suggestions on alternate materials. We shall make immediate inquiry on their applicability.

Very truly yours,

TILO COMPANY, INC.
