MITSUBISHI MONSANTO CHEMICAL COMPANY

FROM LOCATION : Tokyo

cc Mr. J. Cresce

DATE : June 9, 1967

SUBJECT : BIPHENYL & AROCLOR PATENTS - JAPAN

REFERENCE :

TO : Mr. J. E. Maurer
St. Louis, Mo.

Dear Jack:

We did a lot of searching for your memo of May 3rd recently mentioned in your correspondence. It finally turned up yesterday, arriving apparently by boat mail. In the meantime, MMK's planning department had been finishing their study of patents on this subject and directed a memo to G. R. Buchanan, May 31st, 1967. Copies went to Buchanan, of course, and to Cresce, Danna and Dickens. Hence, any information that you may need can be obtained by getting a copy from any one of these sources.

Please let us know if you need additional details or translations in more detail of any of the references outlined in the memo to Buchanan.

Best regards,

J. R. Durland
