20200 Sheldon Road
Cleveland, Ohio 44142

Dear Dave:

Enclosed are copies of the data sheets with the results from the air sampling which was performed during our session in Cleveland on August 20, 1975. As you will note, most concentrations were high, but as discussed at the time are not necessarily "daily averages".

I have also sent copies of the data sheets to each of the three plants involved. You indicated that Greg Thomas would share his copies with Paul Gwinner and Ron Wolf.

For all future work, of course, we will use the revised data sheets.

Very truly yours,

Thomas A. Bozich
Industrial Hygiene Consultant
