Dear Bill:

Enclosed you will find a copy of a manuscript entitled "Coatings as Barriers to Prevent Polychlorinated Biphenyl Contamination of Silage". I have submitted this paper for publication to the Journal of Dairy Science. Any comments that you might have would be appreciated.

Your expert advice and Monsanto's financial assistance have been essential inputs to this phase of our PCB research. I thank you very much.

I hope you will have an opportunity to visit the Wooster area in the near future. We are getting some interesting results on our survey of individual producers.

Best personal regards.

Sincerely,

L. B. Willett
