Dr. E. Kelly-Medical
A-2s

PYDRAUL-GERMANY

Mr. R. Davis/D. F. Smith
B-2s

I am attaching a copy of Tiemann's memo of August 12 giving us some preliminary comments by Prof. Malorny of the Universitatsklinik (Eppendorf) on the toxicity tests being run on our Pydraul products. According to these early test results, Pydraul A-200 does not seem to be standing up as well as some of the others in toxicity tests. As soon as final results are in, I will be sure that both you and Dr. Kelly have the whole story.
