

1 A Challenge of Developing, Manufacturing, and
2 Qualifying Nonasbestos Brake Materials.

3 There was a study done for the American
4 Society of Mechanical Engineers sponsored by the EPA
5 on feasibility of removing asbestos so that we got
6 into the issue of asbestos fiber release and also
7 nonasbestos materials.

8 There was a presentation I made in October
9 of 1987 entitled, Fiber Emission from Railroad
10 Brakes.

11 Q And are those -- those are reflected in your
12 CV obviously?

13 A Yes.

14 Q Okay.

15 MR. WILLIAMS: Your Honor, at this time I
16 would like to go ahead and offer into evidence, then,
17 Ford Exhibit 61, Mr. Anderson's CV.

18 THE COURT: That will be admitted into
19 evidence.

20 (Whereupon, Defendant's Ford Exhibit Number
21 61 was received into evidence.)
