RELINED BRAKE SHOE CATALOG

The Relined Brake Shoe Catalog contains brake shoe and disc brake pad information for passenger cars and light trucks from 1945 to the latest confirmed applications. Some earlier model vehicles are also shown.

This catalog has five (5) basic sections to help you determine the proper set for each application.

The following pages will explain each section in order as follows.

I APPLICATION SECTION In Alphabetical Order By Make and Model

II. NUMERICAL LIST
- Relined Brake Shoe Sets
- Disc Brake Sets

III. ILLUSTRATIONS
- Brake Shoe (Sequence by Width and Drum Diameter)
- Disc Brake Pads (In Numerical Order)

IV CONVERSION TABLE
- FMSI Lined Sets to ABB Sets

V. CROSS REFERENCE: Bendix to ABB Set Number

SECTION I

APPLICATION SECTION

61L-65	6 Cylinder Station Wagon	*B-243	9 x 2-1/2	*B-243	9 x 2-1/2
60-61E	All (Exc. Station Wagon)	*B-115	9 x 2-1/4	*B-113	9 x 1-1/2
60-61E	Station Wagon	*B-115	9 x 2-1/4	*B-	

Please remember that the application section is in alphabetical order by make and model. The application section has four basic columns.

Column one (1) gives the vehicle year. Column two (2) gives particular model information, that may be needed to find the proper set of shoes, such as 6 or 8 cylinder engines or Station Wagon, etc. The third column gives the front set number and size while the fourth column gives the rear set number and size.
