The enclosed letters represent our general St. Louis customer mailings since 1970 on the PCB issue for both the Fluids and Plasticizer Groups.

The cover index denotes the effective withdrawal (or reformulation) date for each product and those customers forwarded each letter. For example, the February 9, 1970, PCB alert letter - D. A. Olson (reference # 1) went to all Pydraul and Therminol FR accounts; and the June 11, 1970 withdrawal announcement (reference # 2) from N. T. Johnson went to only Pydraul 625, AC, AC Winter Grade and Pydraul 540 customers.

Knowledge on the details of these mailings is scattered among the various groups, however, I believe the information enclosed is accurate and should be retained for future reference.
