September 6, 1950

Mrs. [illegible] Elinn, Executive Secretary to
Dr. A. J. Vorwald, Director
The Saranac Laboratory
Saranac Lake, New York

NOTED V.B.

Dear Mrs. Elinn:

Your letter of August 31 came today after I had sent mine of September 1 asking about the manuscript of the paper on the asbestos studies.

We are all much pleased that this paper is now in the hands of the publisher and I am sure that the other companies will also be delighted at this [illegible].

In addition to the fifteen copies which you are sending to me here, would you kindly send seven copies to:

Mr. G. K. Foster
Canadian Johns-Manville Co., Ltd.
1255 Philips Square Building
Montreal, Quebec, Canada

This will permit Mr. Foster to give this information to the other members of the Q. A. M. A.

It would be well, too, in addition to sending a copy to Dr. K. W. Smith at Asbestos, if you would send one to Mr. G. H. [illegible], also at Asbestos.

We'll see that those sent here are passed out to the companies that originally underwrote the program.

With very best wishes to you,

Sincerely,

J. P. Woodard
