What's Behind a Croll-Reynolds C-R Evactor?

The production of Evactors is no routine operation at the Croll-Reynolds plant. C-R engineers have over thirty years of industrial vacuum experience to guide them. Development work is constantly under way to improve the efficiency of Croll-Reynolds Evactors wherever it is possible. It is this never-ending research and development which give C-R Evactors their exceptional efficiency.

2. Special boiler in the C-R pilot plant for providing unusual conditions of high pressure steam or superheat (or both).

3. A 30-inch C-R Booster Evactor on test in a C-R shop.
