	Houston	John G. Frederiksen				

TO J. R. Fallon CC Ray Ford

~~J. J. Roder~~

Contact: Bob Soukup - Asst. Chief Engineer

Called with J. J. Roder

Objective: Investigate potentials for Monsanto fluids.

Results: The pipeline company of the Williams Bros. group maintains existing pipelines and turbines run by the Williams Bros. Company. Maintenance includes replacing worn out equipment. Soukup indicated there were three new turbines now in the works to be installed later this year.

Soukup indicated he would be interested in receiving literature, but that he does not make final decisions on fluids used. He suggested we contact Dick Williamson, who is in the Maintenance group of the pipeline company.

Future Action: JGF - Send Therminol and turbinol literature to Soukup.

JGF - contact Dick Williamson re turbinol 153.
