Rory,

I was just called by a reporter w/BBC (Deborah ~~Dwack~~ Dwek? 0171-557-2509) referred by N Tait. Brazil-Eternit's President Aulicino is in London and wants to get on the radio, I passed the reporter on to Fernanda. There is a closed meeting Aulicino's in town for on Thursday, probably the Asbestos International Assn. planning session for arguments to the WTO. Maybe you can find out where this is and even arrange to give the assholes a proper welcome. I told the BBC reporter about the criminal case and the international support and media coverage Fernanda has received on it, and referred her to Alan Dalton for further info.
