Sen Roberts/Sheenagh,

Thank you for passing this information along. I will flag it for the Administrator and look forward to staying in touch.

Best,
Mandy

Subject: Commonwealth Scientific and Industrial Research Organisation (CSIRO) | Report compiled by Senator Malcolm Roberts

Dear Ms Gunasekara

Senator Roberts would like to share our office's work on the Australian government's climate science agency, the Commonwealth Scientific and Industrial Research Organisation (CSIRO).

The CSIRO is a major contributor to the UN's Intergovernmental Panel on Climate Change.

The key conclusions are listed on page 2 in our Executive Summary.

Please note that these points are not opinions - they are observations of CSIRO's behaviour and failings and as such, cannot be sensibly refuted.

The conclusion is that there is no empirical scientific evidence for the government's climate policies.

Now that CSIRO has been unmasked the onus is on the Australian government to prove scientifically that there is any scientific basis for the UN's climate claims.

We would appreciate it very much if you could please forward this email onto Mr Andrew Wheeler and note that we would like to stay in touch with your office, as we have further material to send you on the senator's exchanges with NASA's Goddard Institute of Space Studies regarding its unfounded climate claims.

If we can assist you in any way to restore scientific integrity, please contact our office. We are ready to assist you in this battle to restore science and freedom.
