Subject: AF&PA and AWC statement on PM NAAQS
Attachments: 04-14-2020 Joint AFPA-AWC NAAQS PM Statement.pdf

Mandy, Brett, and Kelley,

It was very good to hear the Administrator yesterday talk about the PM NAAQS and his decision to retain the current standard and why. It's clearly been an extensive rulemaking process with lots of outreach especially with CASAC as you meet your statutory deadlines.

As requested, I am sharing our joint news release on the proposed PM NAAQS. I have copied our communications team if you have any follow-up as well as Paul Noe.

Thanks for your work and we look forward to providing comments on the proposal.

Tim Hunt
