Dr. Dora R. Passino
Fishery Biologist
Great Lakes Fishery Laboratory
1451 Green Road
P. O. Box 640
Ann Arbor, Michigan 48107

Dear Dora:

Many thanks for the copy of John Hesse's talk. It pleases us greatly that our collective efforts have so dramatically reduced the level of PCBs in Michigan waters and fish.

If we can provide you with any further assistance, please let us know.

Best regards

Scott
