March 4, 1969

Mr. H. W. Speicher
Headquarters Industrial Hygiene
Westinghouse Electric Corporation
East Pittsburgh, Pennsylvania 15112

Dear Wilbur:

Enclosed are two copies of material relating to the alleged findings of polychlorinated biphenyls in wildlife. You will recall we discussed this on the phone.

I called Jim Bryant as soon as you and I had finished our conversation. I was trying to reach you in connection with the letter from the attorneys in Phoenix. A copy of that letter is enclosed.

Sincerely,

Elmer P. Wheeler
Manager, Environmental Health

EPW:cjs
