SUBJECT: OECD PROPOSALS FOR CONCERTED ACTION

REFERENCE: JNH/cdl

TO: PJA MARSH - Brussels

cc: HA VODDEN - Ruabon
S CHANTRELL - London
JF CHURCHILL - London
WB PAPAGEORGE - St. Louis
C PATON - St. Louis
S TUROVER - Brussels

I phoned Dr. Presst to discuss the latest draft of the Proposals for Concerted Action. A summary of amendments he will try and obtain is as follows :

Page 3 - item 1 - line 8 above "compounds" put an asterisk referring to a footnote at the bottom of the page which needs " As of the time of the preparation of this report, limited research studies with certain selected PCB - compounds may indicate that some of these compounds could eventually safely be used for certain applications.

Page 7 - item 13 (a). This needs to be changed to tie in with 14 (b) (i) Dr. Presst will rephrase.

Page 8 - item 13 (d) line 1 after "than" add "persistant". Leave footnote as it is.

Page 9 - item 14 (c) line 1 after "elimination of " add "persistant".

Page 9 - item 14 (f) (i) and (ii). Dr. Presst says not to be too alarmed by this. In collaboration with the UK Dept. of Environment we will agree what it is reasonable to give the OECD.
