September 29th, 1966

Mr. E. A. Martin,
Director of Purchases,
The Bendix Corporation,
Marshall Eclipse Division,
TROY, New York 12181.

Dear Ernie:

Thank you for the article on Asbestos from Chemical Week; yours was the 101st copy I received. However, I had not seen the one on "Trees" and this latter calmed my nerves.

I suppose we have to bear with people who have nothing better to do than create alarm, but we are not alarmed and we live and sleep with the stuff.

You will be interested to know that Chemical Week will print a retraction of the article and the U.S. Public Health Service is mad because they have been misquoted. Representative Robert Watkins claims he needs the votes and asbestos was a handly vehicle.

Anyway good health and best wishes.

Yours sincerely,

N. W. HENDRY,
General Sales Manager
