Dr. Vincent J. DeCarlo, Chief
Monitoring and Information Systems Branch
Office of Toxic Substances
U. S. Environmental Protection Agency
Washington, D. C. 20460

Dear Dr. DeCarlo:

Many thanks for the following information which you sent to my attention on September 23:

1. "Environmental Levels of PCBs"
2. PCB data from the Sauget, Illinois area.

I am enclosing a copy of the PCB book of references which we recently compiled at Monsanto. This listing serves as a supplement to the National Library of Medicine listing TIRC-1, ORNL-EIS-72-20 by G. E. Quinby for the period 1881 to 1971. This reference volume is a computer printout of all PCB publications (653) appearing in Chemical Abstracts since 1971. No cross index or special groupings were prepared. We hope that you will find this of value.

Sincerely yours,

Robert E. Keller
Manager, Applied Sciences
