Stacy, a quick follow-up. The following link contains reports that include registration statistics. That should answer your questions.

Thanks, R.

Good morning Stacy,

My colleagues from our New York City office have forwarded me your question. Here's what we have:

**QUESTIONS FROM THE REPORTER:** I was wondering if you could point me in the direction of some data. I'd like to visualize the number of EPA-approved pesticides over time. So I'd want an annual count going back 5-10 years, more if possible.

A few things? Do you have any more questions? Are you writing a story on the pesticides approval process, or something larger? Also, it looks as though you're not on a tight deadline? I take it you're researching? Thanks for clarifying/correcting as needed. Happy to discuss.

Regards, R.
