Mr. William Gunter
U.S. ENVIRONMENTAL PROTECTION AGENCY
TS 794
401 "M" Street, Southwest
Washington, DC 20460

Dear Bill:

Attached, as you requested, is a copy of the request for information on incidental PCB generation received from Region VI by a chemical manufacturing facility located in that region.

I had used this letter for other purposes before yesterday's meeting and had "blanked-out" the name and address of the recipient. However, I hope the letter (and attachments) will help provide the information you desire.

Sincerely,

John H. Craddock,
Product and Environmental
Safety Director
