Company Pursuant to Order Dated October 20, 2003. This request for production is overly broad and unduly burdensome because Plaintiffs have not identified a particular product or dates and extent of exposure to that product. Defendant further objects to responding to this request for production and relies upon the privilege between an insurer and insured in discussions regarding the defense of any claim or category of claims. Subject to and without waiving objections, available documents responsive to this request will be made available for review on execution of a Confidentiality Agreement.

REQUEST NO. 26:

Any and all writings or documents of any nature whatsoever, including but limited to, any blueprints, schematics, drawings, sketches, insulation specifications, engineering standards or other documents, in the possession of the Defendant, any predecessor or related companies, which refer, reflect, concern or relate to in any way the application, installation, storage or removal, of any asbestos, vermiculite, asbestos-containing product or vermiculite-containing product at any site as described in Interrogatory number 108 on any location in the State of Illinois, and on any location or site within a 200 mile radius of Madison County, Illinois.

RESPONSE:

See Answers to Interrogatory Nos. 36, 41, and 108 in Dana Corporation's Supplemental Answers and Objections to Plaintiffs' Interrogatories Regarding Warner Electric Brake & Clutch Company Pursuant to Order Dated October 20, 2003. Documents that contain this information include the catalogs, instruction manuals, and technical bulletins that are being produced or, once
