Dear Mr. Kim:

I just received your letter of June 18 asking to visit our company to discuss the analysis of transformer oil contaminated with PCBs.

I would be happy to receive you and your staff for such a discussion. Please suggest two or three alternate days when you plan to be in St. Louis and I will arrange to have appropriate technical staff available on one of those days.

I look forward to hearing from you.

Sincerely,

John H. Craddock
