Re: Asbestos

Gentlemen:

The attached information package brings you up-to-date on the actions that the Occupational Cancer Control Unit is taking under the Occupational Cancer Control Act. This includes:

- a. A letter from our Principal, Union Carbide Corp., producers of Resin Grade 244, 144, 110, H.P.O., H.P.P. and SG-210 Asbestos.
- b. "An open letter to California Employers" from the Department of Health.
- c. A copy of Title 8 Section 5208.

Please read all very carefully. There is no cause for alarm. It does require one-time registration for users of asbestos and asbestos containing products and fines for failure to register. It has not yet been defined who has to register.

It is our purpose to keep our customers advised. If this is not clear, please call.

Very truly yours,

HARRISONS & CROSFIELD (PACIFIC) INC.
