The label in use from 1972 to 1978 was prescribed by the United States Department of Labor, Occupational Safety and Health Administration (OSHA) pursuant to 29 C.F.R., Sec. 1910.1001. In November, 1978, Manville Corporation or related entities revised this label to include a no-smoking warning.

Manville Corporation also placed warnings on all bags containing asbestos fiber in five additional languages; i.e.: French, Dutch, German, Spanish and Japanese. Additional cautionary wording may have been used from time to time.

In addition, product literature and brochures which were distributed to customers also addressed potential health risks associated with the use of asbestos. See response to Interrogatory No. ____.
