Pydraul 150

Dear Elmer,

Earlier this week I had the opportunity to discuss Pydraul F-150 with both Dr. Harold Hodge and Dr. Norton Nelson, who is also a member of the National Research Counsel Committee. Information was conveyed to Dr. Hodge as suggested in our discussion during your recent visit to Cincinnati. I believe Harold was quite pleased with the information which he had received and gave me some verbal encouragement.

Incidently, he had just received a copy of your letter of September 30, 1955 to Captain Lloyd B. Shone. I want to thank you also for a copy of this same letter which was awaiting me at the lab this morning.

Sincerely yours,

Joseph F. Treon
