EIA - PCB WORKING COMMITTEE
MEETING

H. S. Bergen
J. P. Mieure
P. S. Park
C. Paton
G. Roush
W. R. Richard
E. E. Stewart
D. Wood

This memo confirms that the working committee of the EIA-PCB Ad Hoc Committee will meet in St. Louis on May 19, and has requested that Monsanto representatives be available for consultation and discussion.

A planning session to prepare for the May 19 meeting will be held in Room B-274 at 10:00 a.m. on May 13. I hope each of you can attend personally.

Attached is a copy of Mr. Cliff Tuttle's letter to the ad hoc committee members in which he summarizes the meeting held with Mr. Ken Ballentine, EPA, and outlines the action plan to be followed by the working committee.
