

1           A     Mostly Borg-Warner, Lockheed.

2           Q     I am not asking about the manufacturers of  
3     the brake lining material.

4                     I am asking where you would get your  
5     replacement parts for the lines of automobiles that  
6     Foreign Motors sold?

7           A     We had a distributor up in New Jersey,  
8     British Leyland.

9           Q     What about for the German parts?

10          A     Same thing.

11          Q     And the same thing for the Japanese parts?

12          A     The Japanese, I am not sure. I believe it  
13     was down to South Carolina somewhere.

14          Q     Now, do you know where Foreign Motors would  
15     obtain replacement brake linings for automobiles that  
16     it had serviced that it had not sold originally?

17          A     Mostly RPS and Wareheim Brake. That is the  
18     two main places we bought them, I guess.

19                     MR. SMITH: Page 75, line 11.

20                     BY MR. SMITH:

21          Q     Did you ever hold a title at Foreign Motors
