Subject BLACK BACK COATED SHEET

I agree with you, we should make all of our products a black back process. This includes any coated asbestos felts that we may produce.

MEMORANDUM

cc: BB- Mr. Johnson
BBR- Mr. Russell
BBH- Mr. Homan

In Reply to *Date* 8/6/70 *From* BBH *To* BBR- Mr. Adams

Subject BLACK BACK COATED SHEETS

This memo is to let you know of a decision to go to the new black back process at Charleston and Shreveport in addition to Perth Amboy and Chicago. This was agreed to at the managers' meeting after you had left, I believe.

In addition, the question was raised as to whether coated asbestos felts should be run with the black back process. There seemed to be general agreement that it should, although Mr. Russell should be consulted to be sure it is acceptable with him.

If BBH can be of any assistance, let us know.
