Office September 11, 1946
To Mr. W. E. Thomas
Socony-Vacuum Oil Company, Inc. Subject Medical and Health Service
26 Broadway
New York 4, N. Y.

In reviewing the possibility of establishing local medical clinics, the only place warranting this consideration would be in Milwaukee where we have approximately 550 employees. This number is distributed among three locations covering about 250 at the office, 200 at our West Plant and 50 at the Marine Terminal.

We have discussed this plan with management and other key men and are also planning to talk this over with our medical staff in Milwaukee for their recommendations and suggestions.

We will be looking forward to receiving, from you, any information on the type of survey that will be necessary and after the completion of this material, we certainly would like to have Dr. Hoag visit us whenever he can.

Yours very truly,

W. E. Krueger
