CODE OF ETHICS

NATIONAL PAINT, VARNISH AND LACQUER ASSOCIATION, INC.

WE, members of the National Paint, Varnish and Lacquer Association, Inc., recognizing our responsibilities and obligations to promote the public welfare, and to maintain honorable, fair and friendly relations among men, do pledge ourselves:

1. To compete always with fairness and honesty, seeking patronage on merit and service; to refrain from false, derogatory reference, written, oral or printed, to competitors or their products; and from the circulation of harmful rumors regarding such competitors' products or their personal or financial reputation; to strive, by sincere and intelligent cooperation with our competitors, in all lawful ways to increase the efficiency and service to the public of the industry as a whole; to base our advertising exclusively on the merit of our own products and the value of our own service, without false, derogatory reference to the products of competitors or misleading comparisons therewith.
2. To be guided by a spirit of justice, honor and fairness, in all our relations with members of the allied trades, realizing that the standard of ethics maintained in our industry must vitally affect the standard observed in associated industries; to encourage the adoption by the allied trades of similar codes as guides to govern their practices; and to discourage unfair trade practices in those trades, even though such practices might at times be to our own immediate advantage.
3. To represent our products truthfully in advertising, labeling and branding; avoiding therein all false or misleading statements or descriptions.
4. To avoid and actively strive to prevent all forms of commercial bribery or corruption by members of this Association and by the industry in general; and to this end we pledge our support to the Federal Trade Commission in locating and prosecuting individuals guilty of such practices.
5. To recognize the right of employees to use all honorable and reasonable efforts to better their conditions, but to refrain from directly or indirectly soliciting or bidding for the services of the employee of another member.
6. To recognize that only when an employee shall take the initiative shall we have the right to negotiate with such an employee of another member.
7. To refrain from the unethical practice of taking in exchange or in any manner assisting in the exchange of the paints, varnishes or other kindred products of another manufacturer, distributor or dealer.
8. To adhere faithfully to the rules of conduct herein set forth and to inspire our fellow members to do likewise, believing that the Golden Rule is the only safe guide of conduct in the relations among men.
9. Any violation of this Code shall be referred by the President of the National Paint, Varnish and Lacquer Association, Inc., to the Executive Committee for consideration and action.

FOR 79 YEARS PROGRESS THROUGH COOPERATION

The first meeting to organize an association of paint and varnish manufacturers was held at the Grand Union Hotel, Saratoga, New York, on September 11, 1888. There were in existence at that time several paint clubs which were strictly local or regional in scope. Because paint was distributed mainly through drug stores, many paint manufacturers were members of the National Wholesale Drug Association.

The first and oldest paint club was the Paint and Oil Club of New England, organized February 23, 1884. It is still a thriving organization as the New England Paint, Varnish and Lacquer Association. The St. Louis Paint, Varnish and Lacquer Association held its first meeting on December 18, 1886. The first meeting of the Chicago Club was held February 25, 1887. The New York Club was organized February 26, 1887. The Philadelphia Club was organized October 1, 1887 and the Pittsburgh Paint and Drug Club came into being on May 24, 1887. George B. Heckel, in his history of the American paint and varnish industry, "THE PAINT INDUSTRY", calls attention to the fact that the Cincinnati Club also had been organized in 1888.

Delegates of the various paint and oil clubs met in Saratoga and agreed on the organization plan and decided on the name "National Paint, Oil and Varnish Association of the United States".

In the decades following the organization of this association, the manufacturers in the industry, while almost invariably retaining their membership in the National Paint, Oil and Varnish Association, formed separate organizations which developed as follows:

Paint Grinders' Association of the U. S., organized May 8, 1889.

Paint Manufacturers' Association of the U. S. (a change of name by the Paint Grinders' Association) in 1907.

National Varnish Manufacturers' Association, organized November 3, 1903.

American Paint and Varnish Manufacturers' Association, organized October 11, 1926, being a combination of the above two.

Unification of the National Paint, Oil and Varnish Association and the American Paint and Varnish Manufacturers Association was brought about November 1, 1933 at the annual meeting of the industry held in Chicago. New conditions clearly demonstrated the interdependence of the various factors of the industry in cooperating with the Government through a single powerful organization of its own, with maximum prestige and benefit for the individual members and the industry as a whole.

At that time the National Paint, Varnish and Lacquer Association was founded, destined to play a dominant part in the industry's progress. Today, in its splendid Washington headquarters, it is a highly efficient and well regarded organization which renders valuable and varied services to its members.

3. Unless otherwise agreed between the parties of the controversy, each party shall submit to the Arbitration Committee his side of the case in form of a typewritten statement, which shall present his position and contain his arguments in support of same and cite any precedents bearing on the case. 5. A majority of the members of the Arbitration Committee shall be present to constitute a quorum empowered to hear and determine the matter in dispute, and such majority may, if it desires, select substitutes for other members of the Committee who are unable to attend. Such substitutes shall be members of the Association and qualify under Rule 4 and shall serve only in connection with the controversy for which they have been selected.

6. The record of the action of the Committee shall be made in triplicate, one copy of which shall be given to each of the contending parties, and one copy sent to the Secretary of the National Paint, Varnish and Lacquer Association, Inc., but no report of the same shall be published or made a matter of permanent record.

welfare, and to maintain honorable, fair and friendly relations among men, do pledge ourselves:

1. To compete always with fairness and honesty, seeking patronage on merit and service; to refrain from false, derogatory reference, written, oral or printed, to competitors or their products; and from the circulation of harmful rumors regarding such competitors' products, or their personal or financial reputation; to strive, by sincere and intelligent cooperation with our competitors, in all lawful ways to increase the efficiency and service to the public of the industry as a whole; to base our advertising exclusively on the merit of our own products and the value of our own service, without false, derogatory reference to the products of competitors or misleading comparisons therewith.

2. To be guided by a spirit of justice, honor and fairness, in all our relations with members of the allied trades, realizing that the standard of ethics maintained in our industry must vitally affect the standard observed in associated industries; to encourage the adoption by the allied trades of similar codes as guides to govern their practices; and to discourage unfair trade practices in those trades, even though such practices might at times be to our own immediate advantage.

3. To represent our products truthfully in advertising, labeling and branding; avoiding therein all false or misleading statements or descriptions.

4. To avoid and actively strive to prevent all forms of commercial bribery or corruption by members of this Association and by the industry in general; and to this end we pledge our support to the Federal Trade Commission and any other enforcement agency in locating and prosecuting individuals guilty of such practices.

5. To recognize the right of employees to use all honorable and reasonable efforts to better their conditions, but to refrain from directly or indirectly soliciting or bidding for the services of the employee of another member.

6. To recognize that only when an employee shall take the initiative shall we have the right to negotiate with such an employee of another member.

7. To refrain from the unethical practice of taking in exchange or in any manner assisting in the exchange of the paints, varnishes or other kindred products of another manufacturer, distributor or dealer.

8. To adhere faithfully to the rules of conduct herein set forth and to inspire our fellow members to do likewise, believing that the Golden Rule is the only safe guide of conduct in the relations among men.

9. Any violation of this Code shall be referred by the President of the National Paint, Varnish and Lacquer Association, Inc., to the Executive Committee for consideration and action.

ANTI-BRIBERY AGREEMENT

WHEREAS, The Federal Trade Commission, at Washington, has decided that the practice in trade of manufacturers or dealers, secretly giving commissions, gratuities, or other things of value to employees of concerns to whom they sell is unfair competition; and

WHEREAS, The members of the National Paint, Varnish and Lacquer Association, Inc., are in full sympathy with the purpose and wish to cooperate with the Federal Trade Commission to eliminate the practice:

Therefore, We hereby agree for ourselves individually, our respective companies, salesmen and employees, not to permit the gift of any commission, gratuities, or other things of value to employees of concerns to whom we sell; and we further agree not to allow our salesmen expense money for any other purpose than for legitimate expenses, and not to permit any funds to be dispensed in any illegal way to influence business.

We are signing this agreement irrespective of our membership in the National Paint, Varnish and Lacquer Association, Inc., or contemplated membership or because signing it is compulsory in order to become members or to continue membership in said Association.

NON-EXCHANGE AGREEMENT

Whereas, the taking of the products of one manufacturer by another in exchange for his own products—commonly known as the "Exchange of Paints, Varnishes or Lacquers"—is unethical and demoralizing:

1. We hereby agree for ourselves and for all individuals, firms or corporations employed by us or doing business under our direction and control that we will not take or allow to be taken in exchange for our own products any paints, varnishes, lacquers or other products of any other manufacturers; nor will we give or permit the giving of any advice or assistance in facilitating such exchange or replacement or the disposal of competitive products in the hands of others; nor will we make or permit to be made any concessions, allowances or gifts of any kind to promote or facilitate such exchange.

2. We agree to report promptly to the National Paint, Varnish and Lacquer Association, Inc., any violation of this agreement coming to our knowledge.

3. We agree to cooperate with the National Paint, Varnish and Lacquer Association, Inc., in the investigation of such report.

4. The National Paint, Varnish and Lacquer Association, Inc., shall investigate such report, and if found correct shall report the facts to the Board of Directors, who shall notify the accused of the charges, and provide due opportunity for hearing. The undersigned agrees that if the Board of Directors shall find that such charges are supported by fact and that the accused has acted without valid justification or excuse, the Board may direct the General Counsel to report all pertinent data to the Federal Trade Commission for appropriate action. A finding against a member of a violation of the law by the Federal Trade Commission shall be deemed a violation by such member of Section 7 of the Code of Ethics of the National Paint, Varnish and Lacquer Association, Inc., and such further action as the Board of Directors deems appropriate shall be taken.

5. We agree to inform all individuals, firms or corporations employed by us or doing business under our direction and control of the purport of the scope of this Agreement and to advise them that any effort or assistance on their part to effect or promote the exchange through sale or otherwise of the products of any other manufacturer for the purpose of replacement in whole or in part by our own products, or to assist in the disposal of competitive products in the hands of others constitutes a direct violation of this Agreement.

6. We accept responsibility for any violation of this Agreement by any individual, firm or corporation in our employ or doing business under our direction and control and will require of them by all lawful means that they shall not negotiate, arrange, or in any way participate in the replacement or transfer of any products other than those of our own manufacture.

7. We agree that in all cases where the application of this Agreement is in doubt we will submit the facts to the Board of Directors of the National Paint, Varnish and Lacquer Association, Inc., before taking action, and will abide by their decision.
