SAFETY
QUALITY
PERFORMANCE
ARE ASSURED WITH RAYLOC SUPREME SHOES AND PADS

SAFETY is the major concern of everyone that purchases brakes, but unfortunately all friction materials don't provide that safety. Our "SUPREME" shoes and pads are designed to give you that extra stopping ability when you need it.

QUALITY American Brakeblok lining is used on our "SUPREME" brakes and is thoroughly road and laboratory tested to assure you of the "best there is" in quality.

PERFORMANCE means more miles, less noise, smoother operation.

Specify Rayloc "SUPREME" shoes and pads on your next reline and get Safety—Quality—Performance.
