Attached is a copy of the notice of non-compliance with Section 15(1)(c) of the Toxic Substance Control Act received by the Chocolate Bayou Plant.

The citation states that PCB storage containers were not dated as required by the Act.

No fine has been assessed, but could be if immediate remedial action is not taken.

The plant is reviewing the current status of its PCB storage practices. Appropriate corrective action is underway, if not complete at this time.

A reply as shown on page 2 will be made by this office when corrective action is complete.
