Another type of pallet consisted of a wire basket-type of pallet and that would also contain layers of parts, which were packaged by layer.

Q From there, in the normal course of business, you place these parts into Ford vehicles?

A We also have -- excuse me -- we have pallets which were constructed of a wood bottom, as I referred to, with cardboard sides and wire banding.

Q These were placed on Ford vehicles after they arrived?

A Yes.

MS. KNOWLES: I have no other questions.

FURTHER EXAMINATION

BY MR. FLOYD

Q In the Answers to Interrogatories, with regard to Worldbestos, Brake Lining Company of America and P. T. Brake Lining Company, my summary shows here that those were onl listed as suppliers for the Mutt vehicles. Am I correct in that or were they also used on passenger vehicles? That would be Worldbestos, Brake Lining Company of Americ and P. T. Brake Lining Company, Inc.?

A It is my understanding that Worldbestos is part of the Raybestos Corporation. That is a division or a portion of that company.

Q What about Brake Lining Company of America?

A I believe you are correct in regard to Brake Lining
