CUSTOMER CALL REPORT

CUSTOMER & LOCATION Diamond Shamrock

INDUSTRY CLASSIFICATION Chlor-Alkali

SALESMAN H. B. Rhodes

REGION

DATE OF CALL 2/10/78 (Teleco

PRODUCTS DISCUSSED:

Cr	Mn	Spec.	Si	CaC_2	W	V	Asb.
☐	☐	☐	☐	☐	☐	☐	X

Other:

PERSONS INTERVIEWED: Mr. Leo Benezra

CALL OBJECTIVE: Customer called with question re "Calidria" asbestos.

RESULTS OF CALL: When Diamond Shamrock became aware of the most recent NIOSH recommendati re an asbestos standard, they became concerned that a sudden ban might occur somewhere in the future. As a result, Mr. Benezra has been at work for the past year to develop a non-hazardous (basically non-asbestos) diaphram for use in chlor-alkali cells. He had come up with the idea that the short-fiber "Calidria" asbestos might be so short that it did not fall under the various regulations. Unfortunately,I could only tell him that there were enough long fibers present so that we could only say that it should be considered as crysotile asbestos for regulatory and health purposes.

FOLLOW-UP ACTION REQUIRED:

HBR - Provide the confirming letter requested. (Done 2/10/78)

COPIES TO: JRL:TPN:WCT:JEW:KC-FILE:NF-FILE
